Transform your business into its digital future

Galaincha has evolved in the last two decades to become a favorite among leading rug businesses worldwide and is trusted by major manufacturers, retailers, wholesalers and designers alike. And together, we are pushing the boundaries of what can be done through technology in the world of rugs.

We empower you to create and convert any digital artwork into a beautiful piece of handcrafted art out of the loom, with precision and style; and to deliver a futuristic experience to your customers for their amazement and immense satisfaction too.

Strike-off View

Closely view your carpet with all construction details – **silk or wool, high pile or low pile, and carving** to get the perfect output, long before manufacturing the carpet. You can now view a full screen sample as large as your smart TV, with colors accurately matched to your poms in your environment.
